

Name _____
Disease _____

Anchor Activity Human Body Disease Criteria

Directions: Answer all questions with detailed responses. You should be able to find information on all of these questions. If you cannot give a detailed response, than choose a question that is below the dotted line to answer instead.

For example: I could not find information on #6 so I am answering question #14 instead.

1. Cause of disease- Start off by giving an overview of what the disease is. In your overview state the reason why people get this disease.
2. Include a picture of what the disease looks like in your body compared to a healthy body.
3. Scientist who discovered the cause of the disease. Who discovered; When (Date); Where (location); How-an explanation of how they made this discovery?
4. What are the symptoms of the disease?
5. What are the short term effects of this disease? What parts of the body are effected right away and what are some daily activities that would be hindered.
6. What are the long term effects of this disease? What can eventually happen, naming all body systems that would be included. Name specific things in your life you could not do or would be hard to do.
7. Prevention: Can the disease be prevented? If so how? What scientists have found a way to prevent this disease or have made contributions to finding a cure?

8. How have advances in technology affected the way in which this disease is diagnosed and treated?
9. Self -treatment. Can a person with the disease control it by changing some of his or her daily habits?
10. You need to have **at least** 5 sources total. **Three** sources must be from the websites posted on the IMC website. (elibrary, badgerlink, Grolier, Health and wellness etc.) Please use books to find your answers also. Besides the 3 sources that you must use from the IMC website, you can use .gov or .edu, websites. If you use other websites, you must fill out a web evaluation form. Include this with your bibliography page when you turn it in.
11. You need to do a formal bibliography page. Make sure you alphabetize and reverse indent when you use the MLA style.
12. You will be required to turn in your final research to turnitin.com. and a hard copy to me.
